Date: 10.08.2026

JOB OPPORTUNITY

Evolve your career with State Trading Organization Plc.

Position Name	Developer
No. of Position	1
Worksite / Department	Head Office / Information Technology
Salary & Benefits	• Salary: Negotiable • Health insurance will be provided after probation • Staff Privilege Program
Job Responsibilities	• Collaborate with the Lead Developer and solution architects to shape system design — service boundaries, domain models, API contracts, and resilience strategy. • Build and maintain enterprise backend services, web applications and cross platform applications using C#, .NET and Entity Framework. • Design and develop REST and real-time (SignalR) APIs, plus event-driven flows using message brokers such as Azure Service Bus. • Write clean, maintainable, and efficient code following best practices and architectural patterns. • Work across SQL Server, PostgreSQL and Redis — schema design, query tuning, and migrations included. • Optimize performance through profiling, caching, load testing, and efficient async patterns. • Secure applications with OAuth 2.0 / OpenID Connect, Azure AD (Entra ID), Key Vault, and OWASP-aligned coding practices. • Build and maintain Azure DevOps CI/CD pipelines. • Write unit, integration, and contract tests and wire them into automated pipelines. • Participate in code reviews, debug production issues, and contribute to root cause analysis. • Work in an Agile team — sprint planning, stand-ups, refinement, reviews, and retrospectives — breaking epics into estimated, trackable tasks.
Required Qualifications	• Bachelor's degree in computer science, Information Systems, or Software Engineering or equivalent combination of education and work experience • Minimum 3 years of experience in software application development.
Preferred Requirements	• Experience in .NET Framework and .NET Core development • Proficiency in C#, ASP.NET Core, and RESTful API development. • Experience with SQL Server, Entity Framework, and database design. • Hands-on experience with cloud services (Azure preferred, or AWS/GCP) • Familiarity with front-end technologies such as HTML, CSS, and JavaScript. • Strong problem-solving skills and ability to work independently.
Deadline	17 th August 2026, 1230hrs
